

Centrifugal Blower Nomenclature

fan type	inlet	wheel diameter (mm)	wheel width (mm)	voltage (V)	motor type	internal reference	Nr. of pole	special
VC: all blower	S: single inlet D: double inlet	133 = 133 ... 200 = 200	120 = 120 ... 200 = 200	24=24 48=48 23=230 44=415	AC: conventional AC motor SP: shaded pole AC motor DC: conventional DC motor EA: elect. Commutated motor AC input ED: elect. Commutated motor DC input	4-2 45 ...	MA: 4 pole MB: 2 pole	

Example: VCD133120 23 AC 45MA is a 230VAC driven centrifugal blower with the wheel dimension of (dia.)133 x (wid.) 120. It has a 4 pole motor.
